

# STAFFORD COUNTY SCHOOL BOARD

## Agenda Consideration

**TOPIC:** Non-Transportation Zone - CES

**ITEM NO:** 10S

**PREPARED BY:** Larry G. Himes, Director of  
Pupil Transportation

**MEETING:** May 23, 2006  
**ACTION DATE:** June 20, 2006

Andre Nougaret  
Assistant Superintendent  
for Support Services

---

**ACTION REQUESTED BY THE SUPERINTENDENT:** That the School Board approve the recommendation of the Non-Transportation Safety Team resulting from the review of the CES attendance zone.

---

### KEY POINTS:

- On April 12, 2006, the School Board received information on the review of existing non-transportation zones. At that time, a review of the CES school attendance zone was in progress. It was anticipated that recommendations for a newly established non-transportation zone would be ready and shared with the School Board prior to the June 20, 2006 meeting.
- Stafford County School Board Regulation R4-64 makes provision for the review of new and existing non-transportation zones by a Non-Transportation Safety Team comprised on one member from:
  - 1) The Department of Pupil Transportation
  - 2) The Office of Safety and Security
  - 3) The Sheriff's Department
  - 4) The Virginia Department of Transportation
- The composition of the Non-Transportation Safety Team for Conway Elementary expanded to include the school principal and three parents who reside in Leeland Station.
- A public hearing on the proposed Conway Elementary School Non-Transportation has been scheduled on Monday, June 5, 2006 at 6:00 pm.
- The Non-Transportation Safety Team recommends implementing the non-transportation zone for Conway Elementary School in two phases.

#### Phase I

Effective the 2006-2007 school year, a non-transportation zone for Conway Elementary School shall be approved to include Leeland Station development Phases 1, 2A, 2B, 3A and 3B (map attached).

#### Phase II

Effective the 2007-2008 school year a non-transportation zone for Conway Elementary School shall be approved to include Leeland Station development Phases: 4A, 4B and 6C (map attached).

Additions to the non-transportation zone will be considered as development concludes in Phases 6A and 6B. Zones recommended for changes or future implementation will be forwarded to the School Board for consideration.

**SCHOOL BOARD GOAL:** Goal #5 – Provide facilities that promote student learning and community support.
